

Now that we are well through the early stages of the league matches, we can have a look back and review progress and I would like to thank Clubs for their cooperation. Hopefully all clubs will be able to complete the programme.

Some clubs, particularly those with two entries, had a little difficulty in the early stages due to a shortage of players and I must ask them to only submit two entries if they can be certain of fulfilling the programme. With this in mind It is my intention to propose an amendment to Rule (i) (Interclub), and Rule (j) (Over 60s) to require those Clubs with 2 entries to register 20 players per team prior to the start of next season.

Arranging the programme to fit in with the National competitions and the other County fixtures is sometimes a little difficult and I would appreciate it if all clubs would do all they can to play their matches on the dates set out in the matrix for each league.

There were a few teething troubles with the submission of match results but now that all clubs are submitting details on the designated Excel spreadsheet it eases the compilation of the league tables to display on the County website.
