

Help your GP - install the **NHS APP**

We're adapting how we work so we can continue to give you the most appropriate care while keeping everyone as safe as we can. **You can help.** By doing more online you reduce social contact and free up phone lines. With the NHS App you can:

Use the NHS Symptom Checker

to get the right advice fast, and save a GP phone line or appointment

Order your repeat medications

and they can be sent directly to your preferred pharmacy, so you don't go out unnecessarily

See your test results any time

and access other information from your medical record, securely.

With the NHS App you can also

- Register your organ donation preferences
- Choose how the NHS uses your data
- Manage your appointments online.
