

**Residents Survey “Post it” comments 16.11.2017 against Q3 questionnaire outcomes.
 “What do you see as the main threats for the future of Chelford Parish”**

The young of the village should not have to move away because of the lack of social/affordable housing.

Where are the jobs for the new residents going to be? Is Chelford becoming a commuter belt?

Do not want over- development. It will no longer be a village

Main threat is losing rural village character by large housing developments/shops etc. Need to maintain rural village feel.

Developments need to maintain this.
