

Frome Shed December Newsletter 2024

Another community job carried out by Shed members: a sizeable and suitably rustic Christmas Crib has been built by Tony, Ian and Leon, and delivered to St John's Church, Frome.

Safety warning:

There have been a couple of incidents recently when rechargeable drills or screwdrivers have been plugged in, recharging, when the Shed is closed. This can cause batteries to over heat and potentially burst in to flames. Please do not leave any item plugged in when the Shed is closed.

There was a second successful lino printing session and Sheddors were able to start the process of making a Christmas image to be used to print a Christmas card. The lino cutting equipment will be available in the Shed for Sheddors to complete their project.

Another small group got together to make lanterns for the lantern parade.

The Trustees are interested to know the views of Sheddors on how the Shed is meeting Sheddors' needs. The Trustees will be issuing a voluntary questionnaire early in 2025 to gather Sheddors' views.

Meantime, wishing you all a peaceful Christmas.
