Dear Parishes

Re: Discretionary Gully Service - Marlborough Area: Monday 24 – Friday 28 November 2025

Please complete the attached worksheet with your **TOP 5** priority single gullies and email to the area highway engineer: martin.cook@wiltshire.gov.uk at least one week before the crew's arrival to ensure work can be programmed effectively.

They can clear/empty gullies and jet systems. Any further issues found will be reported back to the relevant engineer for further investigation. Parishes will be informed of completed works. Please note, **the crew cannot work where any form of traffic management is required.**

The scheduled visit for the area is one week (excluding bank holidays). However, please note the crew many need to attend to emergencies or adapt the schedule occasionally.

	WEEK 39: 24-28 November 2025 NORTH - MARLBOROUGH
1	Ogbourne St George
2	Preshute
3	Ramsbury
4	Savernake
5	

Kind regards

Local Highways (North)
Covering the Area Boards: Calne, Devizes, Malmesbury, Marlborough, Pewsey, Royal Wootton Bassett & Cricklade

Wiltshire Council

DISCRETIONARY GULLY SERVICE

Please provide the following information for each gully:

- Road name, with adjacent house number, What 3 Words location, together with any further details to help the crew locate (link to website what3words /// The simplest way to talk about location)
- Please provide your TOP 5 priorities only
- Locations where traffic management is required (e.g. bends, reduced visibility, and high-speed roads) cannot not be undertaken.

				The gully crew can clear gullies and jet systems. Any additional repair work or issues found will be reported back to the relevant engineer for further investigation.
