	(1)	(2)	(3)	(4)	Don't know / no opinion
1. Development proposals must have regard to relevant policies on Sustainable Design and Development Principles.					
2. Development should be of a scale and design that is sympathetic to the character of the settlement and its environs.					
3. Development should be well and clearly related to the existing built form of a settlement and not result in an isolated form of development.					
4. Development should reflect design criteria and policies identified within relevant Neighbourhood Plans and Community Led Plans.					
5a. Development proposals to extend a Community Hub beyond its natural built form will normally consist of a small group of dwellings and include a range of housing sizes, types and tenures.					
5b. Development proposals should protect the integrity of any strategically important gaps between settlements.					
6. There should be sufficient infrastructure capacity, or scope to address or alleviate any infrastructure constraints to appropriately meet development needs.					
7. Sites of five or more dwellings should include an appropriate mix* of types and sizes of housing; and meet local needs for affordable and family housing based on any local evidence					
8. Non-residential sites should be designed to complement their setting and meet the needs of their intended occupiers.					
9a. The cumulative impact of residential development proposals is a significant policy consideration. Cumulatively, residential development proposals** must complement the nature, character and size of a settlement.					
9b. Decisions on cumulative impact will have regard to the cumulative increase to the size of the settlement.					
9c. Decisions on cumulative impact will have regard to the number of other development proposals in close proximity or adjacent to the proposal site, in seeking to avoid the over-development of settlements					
9d. Decisions on cumulative impact will have regard to the benefits arising from the development.					
10. The cumulative impact of non- residential development is also a significant policy consideration. Cumulatively, non-residential development** must complement the nature, character and size of a settlement.					

Don't know /

(1) (2) (3) (4) no opinion

11. Allocations made within Community Hub settlements in the SAMDev Plan are considered appropriate sites for development.					
12. Development within the Green Belt is generally considered inappropriate, apart from the specific exceptions referenced within national policy.					
13. Development should respect the qualities of the local landscape and be sympathetic to its character and visual quality.					
14. Development should have a positive effect on any relevant heritage designations.					
15. Development should have a positive effect on any relevant environmental designations.					

* When determining an appropriate mix of types, sizes, and tenures, regard should be given to the need to provide appropriate family accommodation, available local evidence, and the outcomes of community consultation.

** In combination with any existing commitments, allocations or completions since the 31 March 2016.

16. Use this space to identify any additional criteria you consider would be beneficial for community hubs:
