### Action by

#### 104 Public forum

The issues and concerns in the original application by Pegasus, have not been addressed with the modifications made  
The plan is designed to mislead as all roads are shown to be very wide this is not the case and is clearly obvious on site  
Many residents who responded to the original application have not been notified by NSDC planning of the amended plan – this is very disappointing and residents would like to know why they have not been contacted  
No improvement to highway safety has been made in the new plan and construction traffic will still have to try and access the site  
There is no mention of how the medical center, which already appears to be over stretched, will handle the additional patients  
Queries raised about; Sewerage survey, Protected species survey, TPOs and the lack of visibility splays at Dykes End

#### 105 To receive apologies for absence

Apologies from Councillors Barrie and Hatton accepted

#### 106 To receive any declarations of interest

None
