**Subject:** footpaths

hi Richard,

Following my attendance, along with Larrie Wright and david ormerod at the parish paths seminar I would like to make the following proposal to STC.

NCC made a presentation covering various responsibilities for different aspects of PROWs and how to report issues on line. Larrie Wright is willing to take responsibility for reporting any issues. He is fit and active and already walks our paths. He is a regular and reliable volunteer at Parkrun . He is also willing to co ordinate volunteers as a possible future project.

if the STC approved, I would propose that Larrie puts together a path survey with cutting priorities so that we can make a more reasoned request to NCC's cutting regime and it would be a good starting point for budget discussions if STC were to consider taking on any work ourselves.

Les
