

31.03.20 Updated information issued by The Grove Medical Centre regarding patients who are shielding:

FOR OUR SHIELDING PATIENTS:

Dorset Council have set up a community shield helpline for the public – this is available to all those qualifying for shielding under the government criteria of shielding for vulnerability, and for their carers and supporters. (Patients who qualify will have been sent a letter advising them to shield).

Contact: 01305 221022 communityresponse@dorsetcouncil.gov.uk

No problem is too small to ask for help with – calls so far have asked for meds delivery, pet food collection, an isolation phone chat, info on Govt. food parcels etc.
