02 Steve Kemp (Open Plan)

Presentations were made by the above representatives on the best way to approach the development of a Neighbourhood Plan. Both representatives gave a brief background to their careers; and examples of neighbourhood plans with which they had been involved. Key areas were community engagement and the importance of having a steering group made up of local people. The Neighbourhood Plan needs to comply with National Planning Policy Framework, the Local Plan and be consistent with principles of sustainable development. It must also be evidence based & supported by the community. Support, advice and guidance would be given to the steering group and the PC by the chosen provider.
