

Community Engagement Policy

Our community has a central role to play in influencing and shaping what happens in Stonham Aspal. In our emerging People & Place Plan (P&PP), we recognise that our role as a local Parish Council is continuously evolving, and we've committed to helping people to do more for themselves, for each other and for their community.

Community engagement is a planned two-way process by which specific, identified groups of the community are given the opportunity to provide input that enhances decision making processes on issues that may impact on their well-being or interests, at the same time as Parish Councillors remain open to any ad hoc communication with any interested members of our community.

The Parish Council aims to reflect the needs of its residents and the local community, and the services it provides should work towards achieving this aim.

To facilitate this two-way Community Engagement, the Parish Council will:

- Provide parishioners with relevant information about any matters relevant to them and their area, including services, policies, considerations and decisions that might affect or interest them
- Provide parishioners with opportunities to have their say through consultations, surveys and debate
- Provide parishioners with opportunities to get involved and take part in activities and projects
- Ensure views are listened to and used to develop, enhance and improve delivery, where possible and practical

STONHAM ASPAL PARISH COUNCIL

The Stonham Aspal Parish Council will aim to be as open and transparent as possible, providing the local community with as much information through as many different routes as possible. Our Engagement with our Community may be carried out by, but are not limited to, the following ways:

- a) Regular articles in the Parish Magazine distributed throughout the parish.
- b) Online via our website <http://stonhamaspal.onesuffolk.net/> which is regularly updated with information relating to the parish. All agendas, minutes, financial information and County, District and Parish Council news are also available via the website.
- c) Social Media via use of a local group (membership needed).
<https://www.facebook.com/groups/stonham/>
- d) Meetings of the Parish Council and its Committees, which are open to members of the public and allow for public participation at specific times.
- e) Regular Parish Surgeries held at the Village Hall, in the heart of the village, during “Coffee Mornings”.
- f) Distribution of leaflets/letters as and when necessary, and when full parish engagement is required.
- g) One to one contact with Councillors, who are an important source of two-way communication between the Council and residents.
- h) Notice Board - the Parish Council has a notice board outside the Rectory by the entrance to the Recreation Ground and also in Mill Green by the Royal Mail Post Box. These may be used not just for Council news but also for community information. The board is regularly updated, and the community is encouraged to pass information to the Parish Council for inclusion.
- i) Traditional contact may also be made by letter, e-mail and telephone via the Parish Clerk:

STONHAM ASPAL PARISH COUNCIL

When Community Engagement is strong, the following things happen:

- Residents understand and trust the work of the Council
- Residents play a part in decision making
- The relationship between the Council and residents is mutual; instead of residents being passive recipients
- Community members and groups are involved in work to support their area
- Higher numbers of people get interested in the change we need to make and are willing to help us shape that change
- Innovation and change take place through community action
