3. RESOLVED

Before the minutes could be signed the clerk pointed out an error on the line, and apologized Councillors Present, pointing out the Councillor P Robinson, in fact had put his apologies in.

The second point raised was by Councillor Long, who requested that the minutes be amend in the chairman's report. To read on line 7. A short discussion followed, the general consensus was, that the speed was not the main issue (that the following words be deleted was not the main) and replaced with is an. This was agreed unanimously.

That the minutes of the meeting held on November 21st 2017 are approved as a true record and they be signed by the chairman.

4. ARISING.

The clerk informed the council that he had placed the minutes of the last meeting on the website.

The clerk informed the council of the results of the items raised under A.O.B.at the last meeting.

The pot holes in Cappers Lane, I have had no response from highways.

The installation of the SID, I have kept the information provided.

With regards to planning permission for a bus shelter being placed behind the lay-by on the common, I have been in touch with the planning department and we require a Development Enquiry Form. This would cost the council £32 50 to establish if we require planning permission.

The problems with Willbank Lane, are still continuing (It has even been taken of the council web site for a short time) also the pot holes in Cappers Lane and Brindley-Lea-Lane are getting worse. It was proposed that the chairman call in to the Highways Depot at Wardle and ask them directly to have a look at the conditions of these two roads.

5. DECLERATIONS OF INTEREST.

There were none.

6. CHAIRMANS REPORT..

I don't have a lot to report, but it is good to see that our SID, is working well.

Has the electrician completed the installation of the defibrillator on the outside wall of the Goodwill Hall?

Unfortunately Councillor Stan Davies is not able to attend this evening, but we have not had any response from the highways. Other than the letters, and e-mails telling us that they will get in touch. As I have said before, we must keep up the pressure on the highways.

A short discussion followed, the general consensus was, that the speed was not the main issue but the condition of the road surface especially on the bad bend's it was agreed that the council would pursue the issue of getting anti-skid surface in this area.

I would ask the clerk to write again to the highways department, to ask them to look at the anti-skid surface been put in that area, also to ask Councillor Davies to press for it on our behalf.

7. CLERKS REPORT.

I have dealt with several items since the last meeting, which were dealt with in matters arising.
