The Emergency Contingency Plan has been prepared by Nuthurst Parish Council with the assistance of Horsham District Council to co-ordinate an organized response within the community in the event of an emergency.

Resilience Plan

Purpose. The purpose of the plan is to provide a self- help guide to the resources available within the community to support it in a crisis, and the particular procedures to be followed for a specific crisis, especially if the emergency services or relevant local authority support is delayed due to the scope and nature of the emergency.

Activation. This contingency plan will be activated by the Clerk on the advice of the Parish Council’s Emergency Planning Team, and if contactable, Horsham District Council’s Emergency Planning Officer. Where the decision to implement the plan has been taken by the community, then the County and District Council should be advised that the plan has been activated.
