

M20 Moveable Barrier: project update

I'm writing to let you know of some upcoming overnight closures on the M20 London-bound between junctions 9 and 8.

To allow us to finish off work we were unable to complete due to the recent deployment of the Brock contraflow system, the **M20 London-bound will be closed weeknights from 8pm to 6am from Monday 23 January to Friday 3 February 2023.**

A clearly signed diversion route will be in place taking traffic along the coastbound M20, the coastbound A20 towards Dover, then along the A2, London-bound M2 and crossing back to the M20 at J7 via the A249.

As ever, our dates are subject to change. You can check the National Highways closure report which is updated daily with the latest information: <https://nationalhighways.co.uk/travel-updates/daily-closure-report/>.

You can also find all the latest information on our Twitter feed, Facebook page, and the traffic information pages of our website at <https://nationalhighways.co.uk/travel-updates/>.

I apologise for any disruption this may cause you and would like to thank you for your cooperation whilst we carry out this work.

Yours faithfully,

Gary Jeans
Project Manager
