

Hi David,

Apologies for the slow response.

My thought on the key themes & objectives as follows:

- 2. No significant risk of flooding apart from highway drainage issues
- 3.3 Encourage use of solar panels
- 3.5. Investigate possibility of reducing through traffic – Unlikely!  
Work with school to seek to reduce volume of school traffic/congestion
- 8. Identify land not suitable for development – obviously a sensitive issue!
- 9.2 No additional street lighting  
Restrictions on security lighting – no permanent lights
- 12.1 Improvements to pedestrian access to village hall  
Pedestrian crossing at the school?
- 13.4 Engage with the school to seek to reduce traffic volumes/parking congestion
- 13.1(2) Support 20mph speed limit Danes Rd/Saunders La/Romsey Rd?

Draft vision statement

In light of Gordon's comments on housing I would be interested to hear Sharon's views as to whether the wording of this statement would leave us vulnerable to abuse by developers in any way.

Regards,  
Pat

Dear all

Please find attached a draft note of our meeting on 15 August.

Also attached is a draft vision statement, based on earlier correspondence and our discussion at the meeting. As we agreed, please let me have any suggestions for amendment, and I will aim to circulate a revised draft at the end of the month.

The vision statement will need to be amplified by more specific objectives, and using the form that Sharon sent us, I have marked a few suggestions for objectives that we might consider which are specific to Awbridge. It would be good if others could comment and add their ideas by the end of the month, so that I can collate and circulate them.

Best wishes

David
