

## WARBLETON PARISH COUNCIL RISK ASSESSMENT – (Adopted March 2024)

Risk assessment is a general examination of working conditions, workplace activities and environmental factors that will enable the employer to identify any and all potential risks inherent in the place or practices. Based on a recorded assessment the employer should then take all practical and necessary steps to reduce or eliminate the risks, insofar as is practically possible.

This document has been produced to enable the Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. In conducting this exercise, the following plan was followed:

Identify the areas to be reviewed

Evaluate the management and control of the risk and record all findings

Identify what the risk may be

Review, assess and revise if required
