- a. The Chairman of the Development Committee for St Andrew's Church outlined the progress made over the last 3 to 4 years to finalise the scope of the development plans following extensive consultation, including 2 sessions with the PC and also with near neighbours. One letter of comment was received following the near neighbor consultation relating to parking issues and these were currently being dealt with separately.
- b. A resident raised concerns relating to the impact of the hexagonal extension on the adjacent stained glass window and noted that the issue could be resolved by adjusting the position of the extension by moving approx. 1m north. This would involve the movement of bodies and recognized that the current plans already represented a compromise of several issues following consultation with the DAC, English Heritage etc.
