

FREELAND ALLOTMENT ASSOCIATION

Generally, the standard of plots continues to improve as plot holders become more experienced. We acknowledge that this must continue now that the Memorial Garden is coming into use.

We have a Christmas social every January, along with two plotholder meetings every year. In addition, we hold a plant sale/swap to manage any surplus of young plants and twice yearly we have a working party come social to manage the communal areas of the plot.

Two evenings were spent with the beavers, one sowing seeds to be grown on at home, and one at the plot seeing how fruit and vegetables grow. We hope to repeat this this year and are liaising with the school who have previously visited the site.

Four plots have changed hands in the last year and we welcome the new plot holders. This has considerably reduced our waiting list so if you are interested and have a few hours a week to devote to your plot please contact us via our new website, there is a link from the village website under Clubs & Groups or directly to freelandallotments@talktalk.net, or just visit the website to see what is happening.
