

That's great, thanks so much Jayne

As we create the Awbridge Neighbourhood Development Plan, we want to be very clear about how much we value our village school, whilst considering ways to support the school, parents and residents with those times of the day when Danes Road in particular becomes so congested

We look forward to hearing from you

Best wishes

Jo

Dear Jo

Thanks for your email. We started to look at a travel plan for school last year but have not yet finished it. When we have more information, I would be happy to share it with you.

Best wishes

Jayne

Subject: Awbridge School Travel Plan

Hello

I am a resident in Awbridge and a member of the committee that is developing the Neighbourhood Development Plan.

We are very keen for the plan to be supportive of the school as an important part of our community, present and future.

One element of the NDP is to consider traffic flow through the village.

I wonder if it is possible to view your school travel plan to help us explore the best options for this in the future?

I have looked on your website and am unable to find it , which could be my error of course !

Thank you very much in advance

Best wishes

Jo Lees
