Data quoted in respect of Flooding is out of date following the impact of recent flooding to the area, there is no weight limit given for the bridge, the River Teme is subject to SSSI and the construction of the bridge will have a detrimental impact to the surrounding countryside which will out-way any other environment/economic considerations.

Although the Parish Council registered the Temes Green in 1968 as Common Land the Parish Council does not own the land or have any responsibility or jurisdiction in respect of the land.

It is also registered that there is a right to fish and take gravel over the land, but this is not specific to just residents of the Parish.
