# WHY CHOOSE STREETSCAPE?

Our proposal offers a complete fitness facility which is suitable for both individual and group workouts catering for youths and adults over 1.4m in height.

All items proposed are manufactured at our factory in Selby, North Yorkshire.

All of the items proposed are manufactured to the recommendations of BS EN16630:2015, our proposal offers various challenges and tests in an exciting and creative way.

All items proposed can be painted in colours of the Town Council's choice, at no extra charge, all items with possible foot contact are coated in a "Non-slip" paint.

Our equipment is guaranteed for 25 years, with a workmanship guarantee of 36 months also included. Vandal resistant fixings are used throughout all items included, with spare parts for all items held in stock.

We are able to provide quick response times not only during the project delivery but also long term once the project has been completed.

Choosing Streetscape you will be supporting a family run business, based in North Yorkshire, with the majority of the equipment proposed for the project manufactured in the UK.

Site signage with instructions and QR codes linking to YouTube videos and additional instruction - For an example, please visit our YouTube channel or scan the QR code shown below.

Our site signage not only provides extra information in the form of instruction videos via our YouTube channel but also highlights to users:

- Instruction on how to use the equipment and each activity directly available on that item
- Cautions and any possible restrictions to ensure a clear understanding of who should/should not be using that particular item
- Benefits to the user, both as a group or as an individual user
- Number of repetitions and/or suggested workout times depending on user ability

**NO PAYMENT REQUIRED UPFRONT!** Invoice sent on completion of works.

Family Owned Company with over 35 years experience.

Equipment manufactured and installed to the recommendations of BS EN 1176, BS EN 1177 and BS EN 16630.

Direct points of contact before, during and after project.

Easy to maintain equipment with low cost spare parts, held in stock.

Customer references and testimonials available.

# CASE STUDY – BEDALE TOWN COUNCIL

“I have worked with Streetscape on installation projects and play area maintenance across three parish councils, and cannot recommend them highly enough. The communication across the company is top-class, the representatives are helpful and respond quickly without ever being pushy, and the work is of the highest quality. My Councils like that the entire process is Yorkshire-based, and Streetscape really are big enough to cope and small enough to care.” – Clerk.

Warrior Calisthenics Fitness Area complete with additional Fitness Trail, Elliptical Trainer and Hand Bikes. A DJ post provides an area for users to play music while they exercise. The DJ post can be customised to work between set hours of the day with maximum volume also controllable by internal settings.

FINISH

DJ Post – customised to work between set hours of the day with maximum volume also controllable by internal settings.

Along with the fitness area, three dynamic items of play equipment were installed to compliment the existing play area in Town Hall Park. The Explorer Climbing unit provides a modern twist on some of the classic play features such as slide bars, twisted access climbers, climbing net and firemans pole. Our Vortex Overhead Rotator and a 3.3m high Rotating Cone Climber were also included, with all three items custom coloured to suit the location.

# CASE STUDY – BURTON CALISTHENICS CLUB

This fantastic item of equipment allows for a large number of users to carry out Calisthenics training either as an individual or a group and is perfect for boot camps. Suitable for both the experienced user and beginners to perform a variety of exercises that benefit both muscular and cardiovascular fitness, in addition to improving psychomotor skills such as balance, agility and coordination

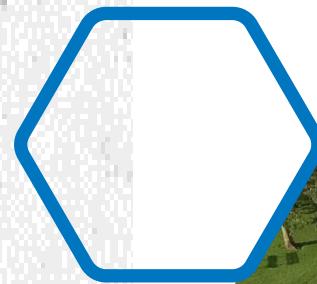

**UK**  
Manufacture

The aim of Burton Calisthenics Club is to encourage people to lead more healthy and active lives through exercise and good nutrition. One of the reasons it's been accepted is that project meets the priority of East Staffordshire Borough Council which is protecting and strengthening communities and also East Staffordshire is part of Healthy Cities network and promoting healthy activities is an important element of that. Engaging healthy activities in communities creates more motivation, encourages people to engage in a challenge, take interest in other sports, improves socializing and discourages from bad habits and unhealthy addictions. Each individual's physical activity and balanced nutrition is very important part in creating strong and happy society. With help from various funding sources such as Tesco's Bags of Help, and multiple fund raising and awareness events through local organisations such as Dads4dads and Harvey's Girls, the bespoke design Calisthenics unit was successfully installed with an Open Day held to thank all those involved to make the project a success. Burton Calisthenics Club now have a membership of over 40 members from 7 different countries and regularly organise events such as organised pull up challenges and group exercise classes.

# TESTIMONIALS

“Streetscape go over and above providing a quote. When a piece of new equipment was suggested, which would have cost at least £10,000, Streetscape very honestly pointed out why it was not suitable for our play area because it needed a number of children on it at the same time to work properly and it was so more suitable for a school or more populated area. Streetscape make excellent recommendations. They seem to know exactly what will be popular. This is really important when budgets are limited as they have been a lot of the time. Streetscape really apply themselves to offering suitable options for the play areas in our Town. They consider the future relationship with customers rather than concentrating on selling and leaving the scene.”

“Streetscape have gone above and beyond with the service they have provided the Town Council. They have attended meeting after meeting, liaised with residents and working groups for the park undergoing works, constantly kept in contact with me with any updates and even offered advice with planning applications in order for the park to progress. Town and Parish Councils work a lot differently to other businesses and unlike most suppliers Streetscape have adjusted to this way of working and the park wouldn't have progressed without this!”

“I would have no hesitancy whatsoever in recommending that you consider working with Streetscape. I have always found them to be very professional on all projects I have worked with them on. Post installation the customer care that has been provided I have found to be exceptional.”
