Shuttleworth Gardens gets a facelift

The gardens getting some serious maintenance work done with some of the perimeter trees being pollarded to open up the area to sunlight.

The Lime trees previously responded well to being pollarded and will spring back to life very quickly.

Little work was needed on the gate because it had previously been restored by one of our local schools but the gate post was in a bad state and needed replacing along with a section of fencing.

The beach chalets below the Clock Café are really starting to take shape.

It now looks certain that they will be ready for the summer season.

Good to see heritage assets being properly valued.
