

Consideration of Strategic Plan Ideas

Prior to 19 November the parish council collected 171 individual suggestions for the utilisation of CI/S106 monies forecast to flow to the council. Not all of these suggestions were unique. These ideas were individually allocated to topic areas and three separate areas established according to the nature of the spend.

Group 1:

Includes all those ideas that can be considered one off investments in infrastructure projects, some of which may require future annual budgets for infrastructure operation.

Group 2:

Spend associated with roads and footpaths where we have limited powers to act e.g. to fund repairs to road and footpath surfaces. But we do not have the power to make changes to infrastructure or install new infrastructure e.g. traffic lights, crossings, parking or speed controls

Group 3:

Spend which would not result in new or improved infrastructure and/or would lead to an ongoing burden on the parish councils budget following the exhaustion of the CIL/S106 funds.

These groups with ideas placed according to the number of advocates for each are reproduced below.

Group 1	Group 2	Group 3
Skate area	High Street Crossing	Youth Club
Acres Access	Pavement Station Lane	Youth Worker
HP Play area	Traffic Calming	Annual Youth Award
Football facilities upgrade	Southwell trail surface	Community Bus
HP/Acres parking	Cocket/Station Lane Traffic Lights	Cycle club
All weather sports surface	Cotton Mill Lane Repairs	Drama Club
Sports Hall/Scout hut	Main Street Parking Controls	Drug Outreach
Junior football pitch	Main Street Traffic Calming	Friendship Club Support
Petanque area	One way schemes	May Day Fair
More dog bins	Parking controls	Monthly Film Show
More Benches	Ridgeway/Milldale Speed Bumps	Monthly Tea Dance
VC Parking	Southwell trail access	OAP grocery delivery service
Acres Classroom	Southwell trail lighting	Running club
Acres adventure play	Speed detection	Small Grants Scheme
Adventure Area	Station lane speed	St Michaels Event Funding
