Subject: Recreation Ground Hedge

Mr. Bishop

I wish to complain about the Gaps in the Rec Ground on the Southlands Side adjacent to my property No 1 Southlands, access allowing people to access the Rec from their cars parked up on the grass verge. They have driven over the roots of the trees (don't know if damage has been caused to the trees) churning up the verge. There is always a trail of rubbish which I have cleared up many times leading from the Rec. With the Gaps closed there would be no requirement to park on the grass verge.

An incident of vandalism occurred on Saturday night where somebody passing through the Gap next to my property decided to "Key" my car causing approximately £600 of damage. Had the Gaps been closed there would have been no reason to go anywhere near my property hence my demand for the Gaps to be closed Urgently.

May I suggest you use a better method of securing the Gaps permanently than previously, which were a poor effort.

Whilst on the subject of the Rec may I enquirer about the progress of my request to have the Cherry trees prune. They have now overgrown into my property and require pruning.

I can be contacted on the below telephone number to discuss the above.

Regards

Allan Brown
