Dear Elizabeth,

I would like to offer my service as a member of the Ogbourne St George Parish Council. I believe I have necessary aptitude, skills, and interest in the village to make a useful contribution.

I have lived in the village for 28 years, giving me a long view of the evolution of the village over the years. I am networked in the community and understand what a sub section of people value and are concerned about.

I have previously been proactive in the village, having established Community Speedwatch in the village in 2012 and coordinating that for over a year. I also brought together and coordinated a COVID support group in the village, in March 2020. This group, over the key COVID lock down periods, supported villagers by, for example, picking up prescriptions and doing weekly shops for vulnerable people.

I am particularly interested in how we can protect the village and its environment and would be keen to explore with the Council how I might be able to contribute to taking this forward. I also have interests in enhancing public transport and energy resources, alongside making better use of the resources and facilities that are currently available to us.

Whilst I have previously been an elected member of the Parish Council, I would have a great deal to learn about the governance practices and regulatory and legal requirements and implications of joining the Council. If coopted, I look forward to working with you and the PC members, to develop my understandings of these and subsequently contributing to the PCs delivery of its plans and responsibilities.

Yours sincerely,

Dr Paul Rouse
