

Happy Halloween! When you're finished with your leftover pumpkins, why not whip up a delicious recipe? If you need to dispose of your pumpkins, you can use your home composter or rubbish bin. Please do not place pumpkins in your garden waste bin. [#CompostYourPumpkins](#)

Shout out to the village for the wonderful Scarecrow Trail and to the organisers. Amazing. My favourite Lurch on St Margarets Way.

Town and Parish meeting

Lots of good information, do try to get someone to each one. Hybrid

Nutrient Neutrality

While we are still at a standstill nationally, SNDC has started the very first mitigation scheme to allow house building in the Yare catchment.

Markshall pig farms are being moved out of the Yare catchment and the land secured by a legal agreement to stop all phosphate and nitrate nutrients on the land. This allows mitigation for building in that catchment.

Flooding

There are still flood warnings in place across our county: to get as much warning as possible, get flood alerts delivered straight to your smartphone. Get prepared and keep your home and your family safe

Grants available:

- **Revenue Funding** This grant supports the investment in bringing communities together through events and activities, or the deployment of resources to create a greater sense of pride in place. This could be to address a specific challenge or to take up an opportunity. We encourage applications to show wide engagement and ongoing community benefit, for example where community consultation is demonstrated, and the project is sustained through ongoing volunteering and other funding. Within your application we would like to know what match funding is available to support your project.

Please note we are not able to support applicant's core running or staffing costs (i.e., existing staff) but will consider essential project delivery requirements such as training.

Volunteer costs can be included. Possible project examples:

- Strengthening our social fabric and fostering a sense of local pride and belonging, through investment in activities that enhance physical, cultural and social ties and access to amenities, such as community infrastructure and local green space, and community-led projects.
 - Building resilient, healthy and safe neighbourhoods, through investment in quality places that people want to live, work, play and learn in, through targeted improvements to the built and natural environment or innovative approaches to crime prevention.
 - 2 o Addressing an issue of antisocial behaviour through providing positive activities for young people.
 - o Building community cohesion in places where there have been large scale residential developments through community activities or events.
 - o Funding to provide support to local volunteer groups.
- Outcome: Improved engagement numbers Outputs: Number of local events or activities supported Number of volunteering opportunities supported Number of people reached

- Feasibility Funding Funding is available to help improve understanding of local needs to develop future community and green infrastructure projects. A feasibility study is an assessment of the practicality of a proposed project plan. As the name implies, "Is this feasible?" This grant can be used to cover the full cost of a feasibility study, although we would encourage an element of matched funding with your application. Possible project examples: o Feasibility study to understand the viability of a proposed multi-sport site. o Feasibility study relating to a proposed new community centre development. o Feasibility study to determine the options of land and their viability for a green infrastructure project. Outcome: Increased number of projects arising from funded feasibility studies

- Capital Funding Grants are available to cover 50% of the total cost of a project, up to £25,000, for investment in capacity building and green infrastructure support for local civil society and community groups. Funding is available towards the cost of new or improved community facilities. Possible project examples:

o Funding towards the improvement work to an existing village hall.

o Funding towards a new community sports pitch. o Funding towards a green infrastructure project.

Outcomes: Improved engagement numbers

Number of new or improved community facilities as a result of support Output:

Number of facilities supported or created

Be prepared for Winter and winter proof your home. Check you have everything you need for you and your family to stay warm and well this winter. Find tips and advice to prepare for winter at <https://ow.ly/KYvL50Q36BT>
