Dear Fellow Villagers,

I have been asked by the farm to send the following message to you all.

Rach

We are requesting everyone to use only the way-marked footpaths across the farm, and to refrain from walking around or across fields as they wish. We are beginning to get busy catching up on all our planting and we are finding people in fields we are spraying and working in. Also can they please pass on the message to anyone they find in the wrong place. We are also trying to keep ourselves healthy to continue working, as the cows are calving and we are out and about at all times and do not wish to be second guessing if a gate has been touched by someone else.

We appreciate your help and understanding at this time.

David, Dorothy and Chris
