

## Lady Goodwin Park comments.....

Ninja trail looks very exciting – the accessible equipment doesn't promote physical activity as it might and it would be good to see more active accessible equipment at other local parks around the area. It's good to make that awkward space active, but also to continue to promote green spaces and places within the park too.

Fully support no mow may

More disabled stuff – suspended steps – 4 in a row

Not sensible use of money considering all the facilities on Hadleigh Park & St Michael's view

I like the Ninja warrior ramp

Important to include all but could the money be better spent on a wide range of activities for all the children?

Great consultation with public and children. Good use of green space for the children of the village.

Obstacle course for all abilities/wheelchair users as there aren't any

Looks well structured. We occasionally bring grandchildren here but aren't regular users. In favour of updating the facility.

Sensory garden at the back off Chapel Lane. Quiet seating area for time out for sensitive and younger children.

Sensory garden? For young children, SEND children who have sensory classrooms at school. Elderly – somewhere pleasant to sit & socialise.

Sensory garden behind current play area with wheelchair access.

Calling this a squirrel park is an insult to Lady Goodwin's husband.

Don't think the Ninja trail will get used.

One thing my friends & their children enjoy is the facilities for less able children and those in wheel chairs at Hadleigh Park. It would be nice to see something added at Lady Goodwin when the new facilities are put in place.

Would like to see more accessible equipment for those with mobility issues eg roll

on roundabout. Don't want the park to be overdeveloped and attract car users to the park. Like the more natural approach with a nature trail to discover on foot. Aspects of Ninja trail good

## Reynolds Field comments....

Happy with it as it is.

Keep this open with a few more trees in the corner as is. It's a nice variation to the rest of the green spaces.

Open grassy space; good maintenance; quiet, peaceful, trees, picnic spots, rubbish bins, seating

Open grassy space; flowers; birdlife; trees; quiet & peaceful; accessible; easy walking; picnic spots

As an allotment holder, I am using Reynolds Field for access. We do have parking on the field, but it is not used by any allotment holders – walking is encouraged. I rarely see anyone using the petanque area. Happy to see a few more trees planted and the rough area on the west side to support wildlife.

What we love – the tree plantation; hedgerows for wildlife habitats & diversity; good venue for functions eg Party in Park; access to countryside for physical & mental health; quietness.

We'd love more of – tree plantations for shade in the baking hot summers.

Petanque courts are in the wrong place – they have become dog toilets.

Mini RC car track for remote control cars. I would love this because I got one for Christmas and there isn't anywhere to take it. Just a small offroad one would be great. The cars are silent and will not disturb people. I think that a lot of other people will appreciate having one as I have seen lots of people with one. Thank you lots ):

## Other general comments....

Yes please to continuing now mow May!

I really like the fact we have no mow May

No mow May !

I'd love to see no mow May continue

No mow May – yes please! Wildlife – yes please!

Wild areas in the village are good for the environment

Do like the longer grass etc to encourage bees especially if slightly manicured so stuff looks cared for and not just abandoned.

Need to ensure we get the views of a range of children including younger ones.

I haven't got any comments as I think the Council are doing a great job and we're lucky to live in such a good village.

Thanks to all those who help to keep our village so beautiful – picking litter, watering, & planting, keeping green areas and planters looking good.

Millenium Wood is a wonderful space and great for walks and wildlife. Well maintained and used.

Love the playgrounds at Hadleigh Park

A road at the bottom of Parfitt Drive would be an advantage if affordable and practical. Encourage mre locals to walk or cycle!!

Access to Acres – can understand concern using Cotton Mill Lane access by residents there but always has been the access to that space. Not sure if proposed new access is a good use of parish funds.

- Orange is my preferred route for access to the Acres.
- Can anything be done about the footpaths (pavements?) that have so many cars parked on them as it's impossible to walk on them – eg Chapel Lane.
- Christmas tree lights were disappointing. Maybe local businesses could be asked to contribute to a better display?
- Councillors should have name badges
- Need to ensure any comment is recorded as they are written before any analysis.
