

30.03.20 Updated information issued by The Grove Medical Centre regarding dispensary team and local pharmacists:

Our dispensary team, along with local pharmacies are currently inundated with medication requests. We now require 3 working days between the time you order your medication and the time in which it will be ready for collection. Please do NOT turn up before this time period unless your need is urgent (in which case please notify the dispenser when ordering).

Over the coming weeks we are expecting to have less staff in the building at any one time as we must protect our staff and patients in line with the Government advice, and we also predict staff to be self isolating at times. This may mean that telephone wait times are a little longer than usual. We trust you will be understanding of this. We are still here to help you when you need us, we just ask for your patience. Thank you.
