## LICHEN SURVEY

The main types of Lichen and the shape they are are shown below.

branches

flat leaves

crusty flakes
(also powdery)

Look for lichens of different colours.

Using the loupe (hand lens), check what shape it is close up. Then measure the size across with the ruler.

Write down your results in the table and also $w$ hat the lichen was growing on (gravestone, building, tree etc.
If it was on a gravestone what year(s) are written on it.

| Colour | Close-up looks it like | Size across <br> in cm | What is the lichen on? <br> If a gravestone, the year(s) written <br> on it |
| :--- | :--- | :--- | :--- |
| White |  |  |  |
| Orange |  |  |  |
| Green |  |  |  |
| Bright greenish-yellow |  |  |  |
| Black |  |  |  |
