Dear [REDACTED],

Many thanks for making me and the Council aware of this issue. We shall address it at the forthcoming meeting on the 5th October and I hope this is something we could get the Parish Steward to address - Elizabeth any comment here please to assist on what can or should be done here?

Kind regards,

Nick

Dear Nicholas,

I do hope my email finds you well.

Further to our conversation of last week, I am writing to you regarding a tree on public land [REDACTED] which I feel is a nuisance.

For the past two years, I have been able to trim back branches, over hanging my property, with help. However, I am unfortunately unable to continue to do so.

My reason being, having sourced 3 independent tree specialist, I have been advised the best scenario moving forward, would be to have the larger branches pruned. The tree being on public land has encouraged me to write to you and seek advise.

I understand the local council is in control of all trees on public land. Having said that, I feel the local council manage and undertake a maintenance programme to not only preserve and maintain healthy trees, but also take into consideration any tree which fits the above criteria and is a nuisance.

Having written to the Parish Council last year, I am writing again with every confidence that the Parish Council will be able to look into my scenario.

Thank you in anticipation.

Kind regards,

Nick

N A Burnet
