

List Powers & Duties for District & County Councils

There is often confusion over what is the responsibility of the Parish Council, District Council or County Council. The below schedule explains a list of duties which are **NOT** the Parish Council's remit, in the first instance the Public Are Encouraged to report these direct to the appropriate body. Should no response be received or an unsatisfactory reply occur, the Parish Council can then escalate the matter with the District Councillor, County Councillor and the appropriate body:

Appropriate Body Schedule
