

# Staplehurst Parish Council

## PARISH COUNCILLOR NATASHA THOMAS

### WRITTEN STATEMENT

I am one of the newer councillors to the village, having moved here at the end of 2018 with my young family and am keen to use my professional experience improving government organisations across the UK, along with my passion for a greener and safer village for current and future generations to bring some new and creative ways to make Staplehurst the place we all want it to be.

I look forward to learning more of history and being a key player in taking it into a future where everyone feels proud of the community we grow.
