

Important Notice to all Members.

In the past we have experienced difficulties in correctly establishing details of all our members and keeping track of those who have and have not paid their correct Membership Fees. This information is very important, because we need to confirm your correct contact information and to know exactly what you are paying for.

All Outdoor Memberships are terminated on the 30th of April and all Indoor Memberships are terminated on the 31st of August. Anyone who has not paid by the due date are not allowed on the Green or on the Indoor Rink under any circumstances. This is because as a non-member you are not covered by our Insurance Policy. Members who paid for the Indoor rink in April 2022 do not have to pay any extra for Indoor subs until September 1st 2023 as your membership has been extended from April to September at no cost.

In order to ensure that we have correct information, we ask all members to follow the correct procedure as follows: -

Every member must correctly fill in all of the relevant boxes on the Membership Registration Form and enclose the correct fees which apply to you as indicated on the form. If paying by BACS – a Membership Registration Form is still required to be completed. Please note this applies to every individual member. A Form returned combining two people from the same address (example - husband and wife) will not be accepted. All Membership Forms not completed correctly or returned with the wrong payment will be returned.

Because of current increases in inflation which may put financial pressure on some members, it has been decided to revert to the system of allowing members the option to pay separately for the Outdoor Membership before the 1st of May and the Indoor Membership before the 1st of September. However, every outdoor member who chooses to pay for the Indoor Membership before the 1st of September must complete **another** Membership Registration Form and submit it with the correct Membership Fee applicable to the Indoor Rink. This does not apply to those who pay for the Outdoor and Indoor Membership in full in April.

Most of our members already comply with the above rules and written down they may sound draconian, but it is essential that we maintain accurate records of all our members. It is also not fair to expect the Membership Secretary or the Treasurer to run around chasing people for information which can easily be supplied on the Form with the correct payment.

Issued by the Executive Committee.
