Maintenance Sum

Maintenance sum on works costs (excluding road markings) of the total works costs to cover a single replacement of those items included in the maintenance agreement only. This is in accordance with the County Council's commuted sum policy.

Where the Parish Council participates in a Parish Lengthsmen scheme and may utilise this resource for low risk maintenance activities in line with the Parish Lengthsmen agreement then the maintenance sum will be reduced to 50% of the total works costs. However, where a Parish Council withdraws from the Parish Lengthsmen scheme or the scheme is closed then a full maintenance sum may become payable. This will be determined on a case by case basis.

The maintenance sum will be applied to new highway measures or street furniture only, where the highway asset is increased. Those measures that aim to declutter, renew or maintain existing measures or street furniture will not incur a charge.

The maintenance sum will be agreed individually for each community funded project.
