

General comments received as part of the NDP Public Consultation on 28th August that should be addressed by the Parish Council before the NDP is ready for referendum.

Identify which councillors should be delegated to:

Subject	Suggestions from public	Action to be considered:
1. Helicopters - Night noise	To reduce flight times and consider change of route.	A draft response that can be publicised should be formed, council to agree which councillors should be delegated to action this. (Draft to be circulated by email to all and agreed as soon as possible.)
2. Footpath to Danebury	A footpath be created to link the village to Danebury.	
3. Speeding in the Parish	Suggestion that village should be a 20mph zone.	
4. Footpath improvement / widening / resurfacing	Footpaths (not footways/pavements) be widened to allow for pushchair access. Surface to be improved/tarmacked to allow easier all weather walking. Footpath vegetation to be cut back to allow people to walk side by side rather than in a line. Footpath maps to be more accessible.	
5. Footpath protection	To add protection to the footpaths' status as part of the NDP.	

In order to fully respond to the comments, a full schedule of comments needs to be presented to all councillors. This is currently being drafted by the Clerk and will be circulated upon completion.
