Good Afternoon Richard,

I hope you are well.

We spoke last year about the street lighting on Phase 4 of the Swans Nest development in Swaffham, we have now been approached to determine the street lighting requirements for Phase 5 of this site.

Following a review of the highway safety requirements on this site, I can confirm that Norfolk County Council does not require any street lighting on this phase.

The Town Council has agreed to taking on lighting for phases 1 and 3, please could I now ask that you review the attached drawings and return the complete C2 letter so that we can confirm the lighting requirements for this particular phase.

As usual, if you have any questions, please feel free to get in touch.

Many Thanks,

Cameron Main, Senior Technician (Street Lighting)
