

Highways Maintenance Newsletter

September 2020

As part of Hampshire Highways' continued commitment to improve the service for Hampshire residents by establishing the most effective ways of working, Highways operations are now operating on a simplified two-area geographical set up.

Our Highways Operations Centre (HOC) is now managing all customer enquiries about

highways issues, and we continue to ask people to contact us online at hants.gov.uk/roadproblems.

Reporting issues direct to us in this way is the quickest way to raise concerns, helps our teams to prioritise works, shows customers if the defect has already been reported, and also allows people to track the progress of their report.

Countywide Statistics for July 2020

435

Emergencies attended

27,237

Square metres of carriageway resurfacing

12

Operation Resilience schemes completed

16,494

Gullies and other drainage cleared
