

Doddington and District Parish Council

Dear Doddington and District Parish Council,

Thank you for submitting your representation concerning 26/1087/HOUS Proposed single storey rear/side extension on 13-04-2026 9:53.

You can read a transcript of your original comment below:

Doddington and District Parish Council submits the following comments:- 1. This application is a single-storey structure to replace and up-grade an existing conservatory. 2. The footprint is slightly larger, but also removes a projecting WC, incorporating it into a re-modelling of the existing structure and so is acceptable. 3. Whilst the structure will extend a short distance to the side of the property and will be visible from the front elevation, it is positioned to the rear and the single storey roofline remains subservient to the main dwelling. So too, the new structure is to be built with brickwork to match the existing and so will not look out of character. Therefore, the Parish Council has no material objection to this application.

We have now received your submission and it will appear on the website casefile in due course. We aim to process all comments received within 2 working days of receipt, but please be aware that this may sometimes take longer due to the sheer volume of comments that we receive. Your comments will be considered before a decision on the application is made. Due to the volume of comments received our officers are unable to respond to them individually. The local planning authority may only consider comments that are based on planning issues, comments on other matters will not be considered.

Kind regards,
Cheshire East Council
