B4MS BROADBAND FOR THE MINT & SPRINT

Urgent Sign Up Required - GBVS

For those in our area who are not live with B4RN and who have not signed up for the Gigabit Voucher Scheme; urgent action is required. **Funding is running** out so allocate it to your property ASAP. Applicable to both **residential and business**. Click the get B4RN page, read and fill out the info. www.b4rn.org.uk

Everyone who wishes for a connection within the Mint and Sprint project needs to sign up ASAP or risk loosing out for both the project funds and their own cash back for digging and box fitting through the scheme (cash back = £150 for residential's and businesses receive £300 + free connection fee worth £150).

Office Open Hours

The B4MS office, a place for materials collection, route information, advice and planning changes is open every first Wednesday night in the month. Kendal Industrial Estate, 7:30 - 8:30 or until everyone has been seen. Just to the right of Lakeland Auto Body (behind the old Auction Mart).

Uninterrupted Power Supply

All B4RN cabinets / head ends have batteries that keep it providing internet in the event of a power cut for a short period of time until a generator is attached. Thanks to Skelsmergh PC for their grant towards this and other funding we now have our own generator.
Remember if you would like your internet and VOiP system to still work in a power cut then you can buy a UPS to plug in-between your power socket and router (basically a 12v battery and trickle charger). Ask Dan for more info.

Telephone Calling Via B4RN

Terminating BT/Copper at your property and using a VOiP line can save you ££. There are a number of options available to you and they are all explained on the B4MS.org.uk website under Resources and DIY section. One of the networks that are proving popular for both home and business users is Circle Loop.
