

Friends of Turweston Church Annual Report 2021

The Friends had very little activity during 2021 mainly due to the continuing pandemic and no call on resources from the PCC.

The expenditure in 2021 was £880 covering churchyard upkeep and cleaning. Income was £3946 made up of interest from investment £1807 and donations of £1710, plus £429 gift aid recovery. However the level of income from the investments has eaten into the capital and therefore during 2022 there will be a change in the investment fund strategy to better balance income and the maintenance of capital into the future.
