

WISES LANE MONITORING GROUP

February 2026
update

The issue of lorries driving up Wises Lane from the A2 and on Danaway were brought to the attention of DHA. A ring doorbell video was also sent to them as evidence. At the time of writing, I have not had an explanation as to why; they were taking it up with the site team.

I asked how many properties are sold and occupied, how many are empty and how many are under construction. Waiting for a reply.

Regarding the Byelaw signs for the Parish, all 13 of them, enquiries were made as to whether or not BDW, DHA or Redrow were willing to contribute to the cost and install them. BDW are reviewing this request internally. They want the total cost for the signs to see if it is within budget and how much of a contribution we would like them to give. If this goes ahead, they will invite a photographer along at the time for PR purposes. They have asked if this is acceptable.

So, please be ready with your comments.

Hopefully we will have the response to the outstanding points by Thursday evening.

Cllr Nicola Butlin
