

Council Report to the A.G.M.

10th April, 2021.

On behalf of the Council, I present our report.

We should have met with the Board in April and October 2020 but, as with most planned events, the pandemic prevented these meetings taking place.

Again, due to Covid, very little happened at County or National level and this is reflected in the content and size of this report. We understand that the Council is to be invited to meet with the Board soon after the A.G.M so that the normal programme – and business - of such meetings might be resurrected.

We are especially pleased to recognise the efforts made by Ross and the Board during the last seventeen months to keep ourselves and the clubs updated with news and advice. This has been both timely and of great use, especially that referring to Covid regulations - which required both interpretation and checking by Bowls England. We all appreciated the speed and accuracy of that information as it unfolded.

Now that how the detail of the Government's roadmap will actually affect bowlers is being pored over, we can expect even more circulars and emails. Let's hope that the current positiveness will prevail!

So, 'Thanks very much' to everyone who contributed to keeping things ticking over!

Derek Whitlock
Councillor (Area 6)
